ONLY ONE FIRM HAD A CHANCE TO BID ON CRUSHER

Public Works Department Prints a Dissolving View Advertisement and Then Buys a \$1550 Machine of Von Hamm Young Co.

By the terms of the Appropriation Bill "Every contract for * * * furnishing material, provisions and other supplies amounting to \$500, shall be awarded to the lowest bidder, only upon the public advertisement for tenders."

The Public Works Department has purchased a rock crusher from the Von Hamm-Young Company for \$1550.

In making the purchase the above law was practically ignored. An advertisement for tenders for the rock crusher was drawn up and dated Saturday last, October 31st.

It was not inserted in any paper until it appeared in the inside pages of the Bulletin on Monday afternoon, November 2nd. It also appeared in the Bulletin of November 3rd, election day. The call was for tenders to be opened at 12 m. on Wednesday, November 4.

Other firms in town who would have liked to tender for supplying the crusher if they had known of the call, knew nothing of the matter until it was too late.

What might have been expected, happened. Only one firm knew of the advertisement. Its tender alone was received, and the contract was awarded to it before any competitor knew that a crusher was wanted.

WHAT MARSTON CAMPBELL SAYS.

"The contract for furnishing the rock crusher was let to Von Hamm-Young Co. for \$1550," said Assistant Superintendent Campbell yesterday. "I sent the copy for the advertisement upstairs on Friday and the date for the closing of bids was fixed for the following Wednesday. That was ample time for those in the Territory who wanted to bid. The crusher was wanted in a hurry, it was needed for the contractor who is building the Pahala road on Hawaii and it had to be sent over at once. If we had waited to advertise for bids on the coast it would have taken three months and delayed the work just that much. The crusher is one which is kept in stock here and is sold only at one price. There was three or four days for bidders to act if they wanted. If there is any question I am willing to abrogate the contract and advertise for bids again, but it will delay the work just that much."

C. M. White, Chief Clerk in the Public Works office, said that he believed the advertisement was sent to be published on Saturday. He had told Mr. Campbell that the time for asking tenders was too short, but the reply had been that it was "all right." The stub in the record at the Public Works office fails to show when the copy was sent to be published, although the advertisement is dated October 31st.

Temporary Premises, FORT AND QUEEN STREETS.

the latter place but a week later turned the city over to the Colombian government.

Since that time there have been smaller revolutions. Since 1900 the Isthmus has been in an almost continuous state of war and it is said that 25,000 lives were sacrificed during the year 1900 in war in Colombia. In the battles on the Isthmus the belligerents were so accommodating at first that they would stop fighting in order to permit the Panama railroad trains to pass. But during 1900 the revolutionary parties hampered the running of trains and the United States was forced to land marines and place them in charge. Trains were sent across the Isthmus in charge of the men from the warships and with gatling guns placed on flat cars to guard them.

The Panama district now contains a large number of Americans and Englishmen who are holding on there for speculative purposes in case the canal is built. The Colombian navy also contains many Americans. Among the natives of the district there exists a very friendly feeling for the United States and it is likely that all of these people will assist in the revolutionary cause, especially when it is backed up by American recognition and by American marines.
